## APPENDIX

Certified 8(a) Program Participants by Region and State

## **ETHNICITY ABBREVIATIONS**

APA	Asian Pacific American
BA	Black American
CA	Caucasian American
HA	Hispanic American
NA	Native American
OA	Other American
SAA	Subcontinent Asian American
H	When used in conjunction with an ethnic abbreviation indicates the individual is handicapped.

## **SPECIAL OWNERSHIP ABBREVIATIONS**

When used with an ethnic designation these abbreviations indicate the 8(a) firm is owned by the following type of organization.

ANC	Owned by an Alaska Native Corporation
CDC	Owned by a Community Development Corporation
TO	Owned by an Tribal Organization

## EXECUTIVE SUMMARY

This is the report on the U.S. Small Business Administration's (SBA) 8(a) Business Development Program as required by the Business Opportunity Development Reform Act of 1988 [15 U.S.C. 636(j)16(A) & (B)]. The purpose of this report is to determine and quantify the extent to which the 8(a) Business Development Program has assisted in the development of firms owned and controlled by socially and economically disadvantaged individuals. The Act requires the SBA to analyze the accomplishments of businesses certified to participate in the 8(a) Business Development Program during the immediately preceding fiscal year and the status of the business concerns that completed their 8(a) Business Development Program term during the immediately preceding three fiscal years. These findings are summarized in this report.

Fiscal year 2004 marked the 36<sup>th</sup> year of the SBA's 8(a) Business Development Program. During fiscal year 2004, a total of 8,900 businesses participated in the 8(a) Business Development Program. These firms made significant contributions to the Federal, state and local tax base and contributed an estimated 194,691 jobs in the Nation's economy. Between October 1, 2003, and September 30, 2004, a total of 1,328 new firms were certified to participate in the program.

Year-end financial statements submitted by the 8,900 firms participating in the program authorized by 15 U.S.C. 637(a) during fiscal year 2004 reported total revenues exceeding \$20.3 billion. Revenue that resulted from the program authorized by 15 U.S.C. 637(a) was \$5.6 billion or 27.58 percent of firms' total revenue.

In order to assess the current business status of firms that graduated from the 8(a) Business Development Program in the past 3 years, SBA surveyed 1,707 firms that completed their 8(a) Business Development Program terms between October 1, 2001, and September 30, 2004. Of the firms that responded to the survey: 776 were independently operational; 19 had substantially curtailed operations; 21 had been acquired by other firms owned and controlled by non-disadvantaged individuals; 199 had ceased business operations, and 692 did not respond to the survey.

The total annual revenue of graduated firms that responded to the survey and reported earnings was more than \$3.2 billion dollars, and they provided employment for approximately 23,865 persons.

Note: Fiscal year 2004 procurement information was not available from the Federal Procurement Data System (FPDS) at the time this report was prepared. All Participants' financial information in this report is based on financial data submitted by the Participants.

## PROGRAM INITIATIVES

- 1. Mission:** The purpose of the 8(a) Business Development Program is to assist eligible small disadvantaged business concerns compete in the American economy through business development. (13 CFR 124.1) These small disadvantaged businesses are owned and controlled by socially and economically disadvantaged individuals, economically disadvantaged Indian tribes (including Alaska Native Corporations), economically disadvantaged Native Hawaiian Organizations and Community Development Corporations. The 8(a) Business Development Program fulfills this mission by providing a menu of business development resources, such as marketing, managerial, technical, and financial and procurement assistance.
- 2. Business Development:** The Business Development Program promotes business development over a 9-year period. Each participant's progress is monitored and measured, and its developmental needs are identified through annual reviews of its business plan. Guidance is provided through SCORE, Small Business Development Centers (SBDC) and Women's Business Centers (WBC). In addition, through award of sole source and limited-competition contracts, the 8(a) Business Development Program provides a logical, systematic approach to market access and enterprise growth to small businesses owned and controlled by socially and economically disadvantaged individuals.
- 3. Management and Technical Assistance:** Under Section 7(j) of the Small Business Act, the SBA provides specialized training, professional consultant assistance, and high-level executive development to eligible firms. This authority allows the SBA to provide assistance to 8(a) Business Development Program participants as well as to other small disadvantaged businesses, low-income entrepreneurs, and small businesses in labor-surplus areas or areas with a high proportion of low-income individuals. However, 8(a) Business Development firms also receive assistance through SCORE, SBDCs and the United States Export Assistance Centers (USEAC), as well as the mentor-protégé, surety guarantee, and loan programs.

## NET WORTH OF NEWLY CERTIFIED PROGRAM PARTICIPANTS

15 U.S.C. 636(j)(16)(B)(i)

*The average personal net worth of individuals who own and control concerns that were initially certified for participation in the Program during the immediately preceding fiscal year. The Administrator shall also indicate the dollar distribution of net worths, at \$50,000 increments, of all such individuals found to be socially and economically disadvantaged.*

- 1. Total Personal Net Worth:** The personal net worth, for program purposes, is the net value of the remaining assets of an individual, after total liabilities are deducted from their total assets. During fiscal year 2004, 1,328 firms were initially certified to participate in the Business Development Program. Table I presents data on the personal net worth of the 1,443 individuals who used their eligibility to qualify these 1,328 firms (more than one individual may use his/her social and economic disadvantage status to qualify a single firm). In determining total personal net worth, the equity in the individual's primary residence and business is included. The average personal net worth of these individuals was \$207,276.

Individuals with a personal net worth ranging from less than zero dollars to \$50,000 constituted 18.3 percent of owners controlling firms that were certified; individuals with a personal net worth of \$50,001 to \$100,000 constituted 15.5 percent; and individuals with a personal net worth of \$100,001 to \$150,000 constituted 13.5 percent. For example; forty seven percent of the individuals owning and controlling firms that were certified had a personal net worth ranging from less than zero dollars to \$150,000. (See Table I)

- 2. Adjusted Personal Net Worth:** The adjusted personal net worth is defined as total personal net worth less the individual's equity in his or her primary residence and the individual's ownership interest in the applicant concern. Please note: the Small Business Act directs the SBA to use adjusted personal net worth, which excludes the net value of the personal residence and the business. For the purpose of determining whether an individual may be considered economically disadvantaged, the average adjusted personal net worth of the individuals owning and controlling the firms initially certified during fiscal year 2004 was \$74,236.

Individuals with an adjusted personal net worth ranging from less than zero dollars to \$50,000 constituted 44 percent of owners controlling firms that were certified; individuals with an adjusted personal net worth of \$50,001 to \$100,000 constituted 22.7 percent; and individuals with an adjusted personal net worth of \$100,001 to \$150,000 constituted 15.2 percent. For example; eighty two percent of the individuals owning and controlling firms that were certified had an adjusted personal net worth ranging from less than zero dollars to \$150,000. (See Table II)

Note: In Tables I and II where the number of applicants in the range is zero, no range is stated.

## BENEFITS AND COSTS OF THE 8(a) PROGRAM TO THE ECONOMY

15 U.S.C. 636(j)(16)(B)(ii)

*A description and estimate of the benefits and costs that have accrued to the economy and the Government in the immediately preceding fiscal year due to the operations of those business concerns that were performing contracts awarded pursuant to section 8(a).*

During fiscal year 2004, a total of 8,900 concerns participated in the 8(a) Business Development Program. This figure includes all firms that entered and exited the program throughout the year. Field offices reported that these firms provided employment for more than 194,691 people.

According to year-end financial statements submitted by participants in the program during the fiscal year ending September 30, 2003, total revenue exceeded \$20.3 billion. Total revenue for the program authorized by 15 U.S.C. 637(a) was approximately \$5.6 billion, or 27.58 percent, of firms' total revenue. The balance of revenue for program participants, almost 72 percent, was earned from non-program sources. This is consistent with program intent to have participants rely on non-program sources of revenue in order to enhance post program viability.

### 1. Benefits to the Economy and the Government

In principal, the benefit to the economy represents the incremental gain to disadvantaged groups from employment and income supported by 8(a) business development contracts, as well as incremental gains in business sustainability. The following are areas in which 8(a) business development certified businesses are contributing to the gross domestic product, the Nation's tax base, employment, and the individual wealth and well-being of all Americans.

- a. **Long-term Business Development Efforts:** Since the inception of the 8(a) program (1968), there have been more than 542,000 8(a) contract actions, worth approximately \$88.4 billion. While these figures represent a very small percentage of total Federal procurement actions and dollars, they still signal significant success in including targeted businesses in the Federal market.
- b. **Employment:** The 8,900 8(a) business development firms provided employment for an estimated 194,691 people during fiscal year 2004, an average of 22 employees per company, whereas the 23.7 million small businesses in America employed an average of only 2 persons per firm.<sup>1</sup> The

---

<sup>1</sup> *The State of Small Business: A Report to the President, 1997* (Washington, D.C.: U.S. Government Printing

8(a) Business Development Program is a source of employment in all states, the District of Columbia, Guam, Puerto Rico and the U.S. Virgin Islands.

- c. **Firm Owners:** Program participants are involved in all areas of community development and volunteer work. They contribute time and resources to improve their schools and neighborhoods, and provide jobs and educational opportunities for minority and disadvantaged youth. In the selection of program participants for annual national awards, much emphasis is placed on community involvement
- d. **Longevity of Firms.** While 71 percent of new businesses fail (with 29 percent still in business) within 8 years<sup>2</sup>, 45 percent of 8(a) Business Development firms are still independently operational 10 years after they enter the program

## 2. Costs to the Government

The SBA's Office of Business Development (BD), located in the Office of Government Contracting and Business Development, is responsible for the administration of the Business Development Program. The following is a summary of the administrative, financial assistance, and management and technical assistance costs of the 8(a) Business Development program during fiscal year 2003:

a.	<b>Program Administrative Costs</b>	\$ 34,944,546
----	-------------------------------------	---------------

SBA program administrative costs consist of personnel, travel, supplies, training and similar expenses. In fiscal year 2004, the 8(a) Business Development Program had actual costs of \$ 34,944,546, including \$2,807,531 attributable to Headquarters, and \$24,186,974 attributable to Field Operations (district offices). A total of 146.9 full time equivalent (FTE) positions worked in the program in fiscal year 2004; including 15.36 FTE's in Headquarters and 131.54 FTE's in Field Operations.

b.	<b>Management and Technical Assistance</b>	\$ 4,625,909
----	--------------------------------------------	--------------

Section 7(j) mandates that the SBA obtain and maintain a qualified cadre of individuals and organizations to provide

---

Office, 1998), pp. 25 and 38.

<sup>2</sup> *The State of Small Business: A Report to the President, 1997* (Washington, D.C.: U.S. Government Printing Office, 1998), p. 227.

assistance to socially and economically disadvantaged individuals. For fiscal year 2004, Section 7(j) assistance had actual costs of \$4,625,909.

**c. Advance Payments**

**\$ 0**

Advance payments are non-interest bearing loans made by the SBA to an Business Development Program participant in connection with the performance of a specific 8(a) Business Development contract to assist the firm in meeting the financial requirements of performing the contract. Since the Federal Credit Reform Act of 1990 (effective October 1, 1992), there have not been any advance payments have been processed or made by the SBA on 8(a) business development contracts. In 1998, SBA eliminated the authority to approve advance payments for 8(a) contractors from the 8(a) Program Development program regulations (13 C.F.R. 124). There have been no new appropriations for this program for the past several years. Consequently, no advance payments have been appropriated for the current fiscal year. However, each procuring agency's contracting officers have authority to provide advance payments on individual contracts to 8(a) Business Development firms using their individual agency's funds.

## EVALUATION OF FIRMS THAT EXITED THE 8(a) PROGRAM

15 U.S.C. 636(j)(16)(B)(iii)

*A compilation and evaluation of those business concerns that have exited the Program during the immediately preceding three fiscal years. Such compilation and evaluation shall detail the number of concerns actively engaged in business operations, those that have ceased or substantially curtailed such operations, including the reasons for such actions, and those concerns that have been acquired by other firms or organizations owned and controlled by other than socially and economically disadvantaged individuals. For those businesses that have continued operations after they exited from the Program, the Administrator shall also separately detail the benefits and costs that have accrued to the economy during the immediately preceding fiscal year due to the operations of such concern.*

The SBA conducted a survey of the 1,707 firms that completed their 8(a) Business Development Program term between October 1, 2001, and September 30, 2004. Of the 1,015 firms that responded to the survey, 776 were independently operational, 19 had substantially curtailed operations, 21 had been acquired by other firms owned and controlled by non-disadvantaged individuals, 199 had ceased business operations, and 692 did not respond to this survey (See Table III). The total annual revenue of all exited firms reporting was approximately \$3.2 billion. Firms exiting over the immediately preceding 3 fiscal years provided employment for approximately 23,865 persons.

During fiscal year 2004, 144 firms were terminated from participation in the Business Development Program. There are numerous reasons for termination; however, most were terminated due to their failure to comply with basic program reporting requirements. These actions ensured that only firms eligible for the program received program benefits. In addition, companies that cease operations and fail to withdraw voluntarily were terminated. During fiscal year 2004, 61 firms elected to withdraw voluntarily from 8(a) Business Development Program participation.

The reasons that caused former 8(a) businesses to cease operations, like the reasons that cause any category of business to cease operations, are numerous. The reasons may include: economic conditions; retirement, illness or death of the owner; reduced Federal contracting opportunities; a decision to sell the business or start a new business venture; or the pursuit of other professional interests. When considering the number of former 8(a) companies that have ceased business operations, 71 percent of new businesses fail within 8 years<sup>3</sup>. Please note that the statutory language cited above requests detailed information for firms that have existed for each of the three preceding fiscal years. However, this level of

---

<sup>3</sup> *The State of Small Business: A Report to the President, 1997* (Washington, D.C.: U.S. Government Printing Office. 1998), p. 227.

detail was not available at the time the report was prepared.

## COMPILATION OF FISCAL YEAR 2004 PROGRAM PARTICIPANTS

15 U.S.C. 636(j) (16) (B) (iv)

*A listing of all participants in the Program during the preceding fiscal year identifying, by State and by Region, for each firm: the name of the concern, the race or ethnicity, and gender of the disadvantaged owners, the dollar value of all contracts received in the preceding year, the dollar amount of advance payments received by each concern pursuant to contracts awarded under section 637(a) of this title, and a description including (if appropriate) an estimate of the dollar value of all benefits received pursuant to paragraphs (13) and (14) and section 7(a) (20) during such year.*

The ethnic heritage of the owners of the 8,900 firms participating in the 8(a) Business Development Program during fiscal year 2004 is as follows: Black American - 3,304 (37.12 percent); Hispanic American - 2,182 (24.52 percent); Asian Pacific American - 1,028 (11.55 percent); Subcontinent Asian American - 957 (10.75 percent); Native American - 784 (8.81 percent); Native Hawaiian American - 52 (0.58 percent); Caucasian American - 403 (4.53 percent) and Other American - 190 (2.13 percent). Men own 70.31 percent of the firms, and 29.69 percent are owned by women. (See Tables IV, V, and VI)

Table VI provides ethnic totals of firms participating in the 8(a) program by state and region during fiscal year 2004. States with the largest number of 8(a) certified firms are California (1,044), Maryland (951), Virginia (873), Texas (642), and Florida (526).

Note: Fiscal Year 2004 procurement information was not available from the Federal Procurement Data System (FPDS) at the time this report was generated.

## TOTAL VALUE OF CONTRACTS AND OPTIONS AWARDED DURING FISCAL YEAR 2004

15 U.S.C. 636(j)(16)(B)(v)

*The total dollar value of contracts and options awarded during the preceding fiscal year pursuant to section 637(a) of this title and such amount expressed as a percentage of total sales of (I) all firms participating in the Program during such year, and (II) of firms in each of the nine years of program participation.*

In FY 2004, firms reported total revenue of \$20.3 billion. Active participants derived 27.58 percent of their total revenue from 8(a) contracts. It should be noted that the full contract or modification estimated award amounts might not be received during the fiscal year in which they are awarded. Also, the total estimated amount might not be achieved at all. Therefore, the firms' revenue figures may not reflect the total contract and modification award amounts. (See Table VII for contract and modification dollars expressed as a percentage of firms' total revenue in each of the nine years of program participation.)

**Table VII**

### **Contract and Modification Dollars Expressed as a Percentage of Firms' Total Revenue In Each of the Nine Years of Program Participation**

<b>Program Year</b>	<b>Number of Employees</b>	<b>8(a) Revenue</b>	<b>Total Revenue</b>	<b>8(a) as Percent of Total Revenue</b>
1	30,490	\$ 168,982,851.13	\$ 2,368,159,158.03	7.14%
2	24,757	\$ 232,367,767.19	\$ 1,680,936,875.36	13.82%
3	21,805	\$ 520,172,236.37	\$ 2,109,627,301.43	24.66%
4	20,564	\$ 740,329,981.40	\$ 2,108,750,879.89	35.11%
5	22,611	\$ 921,374,054.28	\$ 2,952,311,766.02	31.21%
6	16,646	\$ 894,110,530.49	\$ 2,114,467,748.00	42.29%
7	16,966	\$ 741,854,115.02	\$ 1,958,627,581.04	37.88%
8	19,297	\$ 708,038,091.92	\$ 2,369,528,173.33	29.88%
9	21,555	\$ 671,870,972.34	\$ 2,637,677,603.71	25.47%
<b>Totals</b>	<b>194,691</b>	<b>\$ 5,599,100,600.14</b>	<b>\$ 20,300,087,086.81</b>	<b>27.58%</b>

## **REQUESTED RESOURCES AND PROGRAM AUTHORITIES**

15 U.S.C. 636(j)(16)(B)(vi)

*A description of such additional resources or program authorities as may be required to provide the types of services needed over the next two-year period to service the expected portfolio of firms certified pursuant to section 637(a) of this title.*

At this time, no additional resources or program changes are being requested.

## VALUE OF CONTRACTS AND MODIFICATIONS BY SIC CODE

15 U.S.C. 636(j)(16)(B)(vii)

*The total dollar value of contracts and options awarded pursuant to section 637(a) of this title, at such dollar increments as the Administrator deems appropriate, for each four digit standard industrial classification code under which such contracts and options are classified.*

Note: Fiscal year 2004 procurement information was not available from the Federal Procurement Data System (FPDS) at the time this report was prepared. Upon availability of the contract award information, SBA will submit a supplemental report to Congress.
